DETAILED ACTIONS

Double Patenting

1. **Claims 16-17** are rejected under the judicially created doctrine of obviousness-type double patenting over **claims 1-4 of U. S. Patent No. 6, 667, 193 B2**, since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application and similar language recited in the patent claims obviously depict a similar method having either same steps and/or same materials, and such is also disclosed in both the patent and the instant application.

Conclusion

2. A shortened statutory period for response to this action is set to expired 3 (three) months and 0 (zero) day from the date of this letter. Failure to respond within the period for response will cause the application to become abandoned (see 710.02 (b)).
